A MAN WAS CHARGED RE-
CENTLY WITH BEATING HIS
MOTHER-IN-LAW WITH HIS
WOODEN LEG, TURNING
EVEN HIS DISABILITIES TO
ADVANTAGE.

George Couldn't Tell Em
Present day American pa-
pers have one advantage that
was denied to those of Wash-
ington's time. They can print
the president's fish stories.

Report says farmers now are
crushing the pulley to smother
their cattle. They'll need to be
careful about the 14th of
September.

One way out of the prohibition
difficulty might be to call alcohol
by some other name.

The master of a Mexican city
has been lynched. Executioners
were in favor of adopting the
procedure in Edmonton.

Now comes a story of a plot
to "burn" the city of
Maybe a sudden shock would
restore her memory.

A New York paper tells of a
plan to make Central Park
"landscaped" park. Maybe as
a compliment to the visiting
Scandinavian crown prince.

A BANANA SKIN IS TO BE
PREFERRED TO A PLANT. IT
TAKES LONGER TO BE
DOWN.

News item says a music teacher
gave himself up to the police be-
cause his conscience was
troubled. Don't believe a music
teacher has any conscience.

One of England's "saw" de-
vils in England is to be de-
molished. Might have named it
to Munsell for the summer.

We read of an orator so
nervous that he tore his writ-
ten speech to pieces while he
was introducing it. He's the sort
of speaker we have to listen to.

Don't see how there's to be
any harvesting this year. The
workmen will have to stay home
to hear the candidates.

Members of the University of Cal-
ifornia are excavating a tunnel
discovering what kind of mine
the California excavators might also
try to find out why.

A Hawaiian dictionary is
being compiled by a museum
at Honolulu. Play it on your
ukulele.

A NEW ENCYCLOPEDIA
25. Collectors
Collecting is a useful deal.
To be sure, it's a little hard.
And that it brings money.
In many cases, so one ought
to take collecting up.

Some people, a china pup
or prap an old-time warning pan.
One used for crying eyes.
An old rice jar—some can run
A never's wooden leg.
And doing as well always find
Them that have many friends.
For countless thousands of our kind
Are waiting with their hands.
But one exception should be known
That we're forced to pick their hands
Outward, dejected and alone.
Wish you collecting news.

has been becoming a
business through trying to ex-
ploit his job. He is a
"You hear the very saddest
words
That ever human spoke.
Right when you tell your new-
est tale.
They're "Oh-ho"—where's
the "Oh-ho"?"

DAILY HORROR STORIES
These facts would all
add up to find a friend
—in fact facts that are not
true. This is a warning
year for practicing some
warning. Persons born
years ago will be dead
soon.

HOUSEHOLD HINTS
Readership presents cold
hands in summer. The
circulation is a good test
of a "household hint." Keep all
your old postage stamps. They
are the worth more than a few
centuries.

Pickets At Mine Illegal

Police Magistrate Convicts
Three in Marcus Coal
Mine Case

Pending a meeting of their
union, the men convicted before
Magistrate Melvold Wednesday
were charged of picketing at the
Marcus Mine, have not decided
whether they will appeal the case.

Electing for a speedy trial,
Mayor William Walker, of
Hewley, was fined \$20 and costs
of \$2.25 or one month in jail by
Magistrate Melvold in the Pro-
vincial Police court Wednesday
afternoon, for picketing of the
Marcus coal mine workers on
Tuesday morning. Two others,
Livingstone Smith, Federation
of Miners organizer, and John
Torshynuk were assessed the
same fine, while J. Armstrong,
secretary of the Canadian Labor
party was acquitted.

William G. Holey, mine man-
ager of the Marcus mine, testifying
on behalf of the prosecution, stated
that on the morning of Tuesday
he found a picket line of about
nine men at the mine. He was
surrounded by the pickets, who
ordered him to get out of the mine.
He was then taken to the police
station.

Defendant On Stand
William Walker, entering the
evidence of his own behavior, said
that he had gone down to the mine
and addressed the present picket
line.

Rain Falls to Dampen Ardor King Supporters

CANADIAN PRESS
ST. MARYS, Ont., July 29.—
After a day of rain, the crowd which
gathered Wednesday to listen to
Hon. W. L. Mackenzie King divided
into two distinct groups. One in the
town and one in the town.

Members of the University of Cal-
ifornia are excavating a tunnel

Pictureesque Political Life Ends With Death of Dr. Michael Clark

BODIES OF 54
STORM VICTIMS
WASHED ASHORE

Craft Bound for Windward
Islands When Caught
In Hurricane

SANTO DOMINGO, Domini-
can Republic, July 29.—Many
passengers were lost when the
steamship Francisco, Peaceful
and Maoriora, bound for the
Windward Islands, was sunk off
the Santo Island in a storm.
Fifty-four bodies have been
washed ashore at Sanaa.

TWO MEN ARE BLOWN TO BITS

CANADIAN PRESS
OHAWA, Ont., July 29.—Two
men were killed and a third is
believed to be dying from an explosion
in the General Motors plant
just before noon today, and two
others were injured. The explosion
occurred in a critical condition. The
dead men have been identified as
Alex McNab, 27, of this city.

The explosion was caused by
tearing an asbestos torch in a gas-
line tank which was being placed in
readiness for use by the Yates Con-
struction Company of Toronto, who
have the contract for the construc-
tion of the new Pontiac plant for
General Motors on Division street.

The tank contained gas previously
in the building which had previously
been in the building. The explosion
was sufficient to cause the ex-
ploded tank to be blown into the air
and was being with the installation
work.

THE BODIES OF THE TWO MEN KILLED
WAS PICKED UP IN PLACE.

100 ARE DROWNED
TOKYO, July 29.—An official
report from Nippona prefecture
today said that 100 persons were
drowned there in floods due to
heavy rains. Telegram, tele-
phone communications have been
interrupted.

GALE PLAYS BALL
WITH COCONUTS
MANY ARE HURT

MIAMI, Fla., July 29.—The
haze brought by the tropical
hurricane which was described
in the Miami News in an inter-
view on the arrival here of the
storm-stricken yacht, Zuleta, H.
the commander, Captain G. F.
Lopez and Captain R. M. Hutchins
talking back to his desk, to
frank a wild chase of canals
and shells across the Arabian
desert. (It's a scenario)

Fifty Ontario soldiers returning
from Alaska as members of the
Keen-Breen party spent Wednesday
in Edmonton.

THE ZULETA Hopped into port
early today with 12 passengers
and a crew of 20 men was reported
to have been blown from being
lost in the Gulf of Mexico. The
yacht was reported to have
been blown from the Gulf of Mexico.
The yacht was reported to have
been blown from the Gulf of Mexico.

QUEBEC, July 29.—Dr. Gertrude
Hodges, 23, who received her
degree in medicine at Toronto Uni-
versity three years ago, died at her
home here Wednesday.

Pep Gas Scout Turns Tables Upon First Street Merchant

Manager of Christie Grant's Store Gets Unlooked For
Bargain in Fuel Tanks

Tables were turned on R. Chumicki's, manager of Christie
Grant's first street store, on Wednesday, when he drove his sedan
down the street and was one of the lucky automobile drivers caught by
the fuel tanks.

"Here I've always been giving bargains and now I get a bargain
myself," said Mr. Chumicki's when he turned to the small ad. page
and found that his license number was the one drawn from the hat
for the five dollars free of tax.

Every day a motorist may
get 5 gallons of "Pep Gas"
for one dollar if he waits for the
"Small Ads." Every day
the Bulletin must select a
license number on a car
numbered "Ad." and the
owner only has to bring his
car to the Bulletin to receive
an order for 5 gallons of
"Pep Gas" for one dollar.

It is lucky and profitable
to read the "Small Ads"
carefully.

Dr. Michael Clark, former
member of the Liberal
party, died at 8 o'clock Thurs-
day morning at the family read-
ing room. His death fol-
lowed that of his wife, who had
died several weeks ago in a
hospital in Calgary.

CHAIR VACANT IN CONCHS OF LIBERAL PARTY

Pioneer of Central Alberta
Passes Within Few
Weeks of Wife

CALGARY, Alta., July 29.—
Dr. Michael Clark, former mem-
ber of parliament, member of
Central Alberta, and prominent
in the community, died at 8 o'clock Thurs-
day morning at the family read-
ing room. His death fol-
lowed that of his wife, who had
died several weeks ago in a
hospital in Calgary.

Dr. Clark had been in ill-
health for a week and had been
in the community, died at 8 o'clock Thurs-

FINIS! TERRIFIC Fire Is Raging

Chief Ranger Plans to Have
Crews Converge On
Flames

Ninety million feet of the best
timber in Alberta is in serious
danger of destruction by a forest
fire which originated in the
Lac Seul forest reserve, and
which is now sweeping through
the valley of Haywood Creek
and south from Hay Lake, ac-
cording to Chief Fire Ranger
Col. R. H. Palmer, D.S.O., who
this morning received a verbal
report from Sub-Chief Ranger
Arthur Hodgkins, who returned
to the city after a complete in-
spection of the various fires.

CALGARY STAR STILL IN RACE FOR GOLF TITLE

Patriotism and Profit

This investment promotes at once your welfare and that of your province

IT IS the part of both public spirit and individual ambition to secure an interest in an industry which is based upon a natural resource.

The shareholder in the Refineries Distributors Ltd. does more than assist in the development of the richest natural resource in Alberta, and one which promises to become our greatest asset. He is helping to establish an industry which bids fair to surpass all others in financial and economic importance.

And, because he had the vision and enterprise to secure his interest at the inception, he will win profits that will be unattainable to the timid and unimaginative who must wait for a structure to be built before he can see it.

To build up your national—your provincial industries, and at the same time to lay the foundation of your own future. Does this appeal to you?

CANADA sends out more than \$120,000,000 to foreign refineries for petroleum products, and Alberta alone spends millions annually for gas and oil.

• Alberta, destined to be the richest petroleum area in the world, according to the highest geological authority, and already launching out upon that destiny, should be refining and selling her product, and keeping millions of dollars in the country—in the province.

It is both enterprising and patriotic to bring about this condition. And it is for this purpose that the Alberta Refineries Ltd., and the Refineries Producers Ltd. have been organized.

The Wainwright oil field is at your door; it is being developed. The Alberta Refineries Ltd. have built and are operating the first unit of their plant. The demand for the product exceeds the supply.

REFINERIES DISTRIBUTORS LTD. has been organized to market the "Pep" petroleum product and also to build a "Cracking Plant" which will extract 50 per cent of gasoline from the Wainwright crude oil.

Figures on this page show that this company, upon completion of the present plants—the 1000-barrel refining plant, now operating; the projected 500-barrel plant, and the "Cracking Plant"—will realize a net earning from the Service Stations of 41 per cent per annum, on the total capitalization.

The company is in the hands of men of proven ability and integrity, and the production is under the expert care of a scientific and practical man with a long record of success.

With a demand for the production already existing, with a profit already established, it requires little imagination to visualize the success of this company.

An investment showing the maximum of earning capacity with the minimum of risk

+Cracking Plant For Treating Alberta Crude

Prof. Gustav Egloff of the University of Alberta, in a lecture before the American Institute of Mining and Metallurgical Engineers, spoke emphatically upon the wonderful economy and value of the "Cracking Plant" in the production of high grade anti-knock Gasoline from crude oil.

He claimed, and showed by tests and actual production in many fields, that by the Dubbs process, from 50 to 70 per cent gasoline is extracted from the crude and showed that from the Kevin Smith oil crude this percentage is always obtainable. The heavier crude from the Smack-over field is mentioned as showing "the wonderful possibilities of this process."

"One of the wonder oil fields of the United States is the Smack-over Arkansas, which is still producing 180,000 barrels per day, of which 163,000 barrels (December 31, 1925), is heavy oil. This oil, of asphaltic characteristics, is not very satisfactory as a fuel oil due to its emulsion, high sulphur contents and other properties."

"The general inquiry when a new Smack-over well was brought in 'What will they do with it after they get it?'

"One leading oil man stated that Smack-over 'Heavy crude' had everything in it it should not have for a refiner. Yet, despite these pessimistic statements, Smack-over heavy oil is being commercially cracked into over 50% gasoline. Smack-over heavy crude oil production of 180,000 barrels daily can be converted into 81,500 barrels of gasoline per day by the cracking process."

The results achieved presage those which will be accomplished by the Cracking Plant in treating the crude oil from the Wainwright field, as the chemical composition and gravity of the oils are almost identical.

The Dubbs Process is so flexible that it converts any type of oil without change of principles or equipment into gasoline. Commercial plants are in operation or under course of construction in various parts of the world, such as Japan, Borneo, Java, and Dutch West Indies, Australia, Russia, and many parts of the United States."

Refineries Distributors Limited

208 McLEOD BUILDING, EDMONTON, ALBERTA

Capitalization - \$1,000,000

90,000 Shares, Preferred, \$10 Par

100,000 " Common, \$1 "

Present Offering: The balance of a Block of 30,000 Preferred Shares at Par each Preferred Share carrying a Bonus of One Common Share.

DIRECTORS:

JOHN L. MERCER, Edmonton, Alberta, President.

H. A. STEWART, Vancouver B.C.

Vice-President and Managing Director.

M. C. HAMMOND, Edmonton, Alberta.

J. C. C. BRENNER, Clover Bar, Alberta.

ROBERT McDONALD, Edmonton, Alberta.

W. A. TRIMBLE, Edmonton, Alberta, Secretary-Treasurer.

REFINERIES Distributors Ltd. was organized with a Dominion Charter, capitalized at \$1,000,000, divided into 90,000 8% Preference Shares with a par value of \$10.00 each, and 100,000 Common Shares with a par value of \$1.00 each. Paid up capital is \$200,000.

The company was organized to market the "PEP" products of the Albert Refineries Ltd., and also to produce gasoline and other products from crude petroleum by means of a cracking plant, this plant employing the Dubbs process, a great scientific and economic advance over the ordinary refining plant, extracting from 3 to 5 times as much gasoline from the crude oil.

The present issue, for the purpose of carrying on the immediate program of the company, is 30,000 Preference Shares, of which 10,000 shares have already been sold. The Preference Shares are offered in units of 1 at par \$10.00, and each of these Preference shares carries a bonus of 1 Common Share.

The initial program of the company is to erect and maintain a number of Service Stations throughout the Province for the marketing of "PEP" gasoline and petroleum products, a profit of 3c per gallon clear of

freight being available from this source alone at the present market prices.

Also to erect a "Cracking Plant" at a cost of \$150,000. This will have a capacity of 1,000 bbls. of crude oil and will produce from this a minimum of 500 bbls. of anti-knock gasoline every twenty-four hours. At 35 gallons to the barrel, this shows a total output of 17,500 gallons a day.

Apart from the individual profit of the cracking plant unit working at capacity, the output marketed through the service stations shows a distributing profit of \$355.00 per day net. This alone will show a handsome dividend on a \$1,000,000.00 capitalization in addition to the 8% per annum on the preferred shares.

Detailed figures will show this enterprise to be one of the very highest potentiality for profit. We shall be pleased to send a digest of the situation, based upon actual conditions, to the earnest investor.

In the meantime the soundness of the proposition will appeal to the investor who realizes that these pioneer enterprises in industry based directly upon natural resources, reap the rich reward

Marketing Company Has Contract with Refinery

Refineries Distributors Ltd., the marketing company, have a contract from the refining company which guarantees the marketing company 5c per gallon clear of freight delivered at distributing points throughout the country. That is under tank wagon prices at these points. We pay our agents 1 1/2% commission and estimate a further 1/2% for office and overhead—leaving 3c per gallon clear profit to the marketing company.

As an example of the revenue to be derived from this source, figuring on the basis of 1000 barrels per day throughout, half of which would be fuel oil, leaving 500 barrels per day for distribution by the marketing company, 500 bbls. equals 17,500 gals. x 3c per gal. equals \$525.00 per day net profit or \$164,250.00 net profit per year. This amount of oil can be distributed by ten bulk stations, and already we have more than this number established at a cost of \$100,000.

We have had to refuse many orders for products from other points, thus the need for expansion. In addition to this source of revenue the marketing company will build a cracking plant that will give us an additional 17,500 gals. per day of straight gasoline, using Wainwright crude.

The Company is fortunate in having secured as General Superintendent of the plant, Mr. M. L. Berryman, formerly Chief Chemist and General Superintendent of some of the principal plants in the South such as the Gulf Refining Co., The Texas Company, Mexican Petroleum Co., and others. He was one of the first men in charge of a Cracking Plant using the Dubbs Process and his experience has been such that he will be able to operate the refining and cracking plants economically to the very best advantage. He is a highly capable executive. He is most optimistic regarding the present project.

Please furnish me with complete information regarding "Refineries Distributors Limited." It is understood that there is no obligation implied.

Name

Address

"PEP" is the appropriate name given to the gasoline product of Alberta Refineries Limited, produced from the crude oil of the Wainwright field.

"PEP" has justified its name as a lively, volatile, anti-knock gasoline which motorists insist upon after once having used it. Today the present "PEP" plant is inadequate for the demand.
